DO WE MATCH?

There are so many readers!
Draw a line to connect the matching readers.

A large rectangular frame containing two columns of illustrations. The left column consists of five identical grey silhouettes of a squirrel, each with a bushy tail. The right column consists of five line drawings of a squirrel, each with a unique feature: 1) a large black nose, 2) a black nose and a black patch on its forehead, 3) a black nose and a black bandage on its forehead, 4) a black nose and a black patch on its forehead, and 5) a black nose and a black patch on its forehead. The task is to draw lines connecting the silhouettes to their corresponding line drawings.
